ACCOUNTANCY Services & Fees 2021-2022

Using the bulk buying power of the network we have negotiated some extraordinary deals for our members.

Crowe LLP are a top 10 UK accountancy firm and we have negotiated a full accountancy service for your business at a considerable discounted rate that is available when our book keeping service is taken up. The reason they can offer this pricing instead of the usual charge of over £3,000 is because we prepare the account in a set format and by keeping your books up to date including payroll.

The Movo Partnership never take payments from 3rd party providers.

All the benefits are passed on to you.

The larger the take up, the better deals we can strike up on your behalf.
